Maximization of Third-Party Liability Recoveries for the State of MD

November 1, 2019

Q&A – Round 6

Question1:

Will the State consider allowing the proposal to include a fixed fee (in addition to the contingency fee) to account for the costs associated with performing the audit? Will the State please take into consideration that Maryland LTC providers are motivated to self-disclose potential overpayments which may result in no findings when audits occur.

Response:

The State will not allow a fix fee for performing audits with no findings.
